DOORS | CONSERVATORIES

You have made the first step in buying new conservatory for your home.

You will make to you and your family... improved security, reduced maintenance, virtually no maintenance - not forgetting the visual impact - these are the benefits you will benefit from our products.

At frames, your home will be a 'greener' home too - by reducing the need to heat your home, our frames will help you to reduce the carbon footprint of your products.

Choose your home and your lifestyle.

We offer conservatories in a vast array of styles and colours - you have the choice for them to your needs and requirements.

Be sure to look for the VEKA branded tape. Check online to see a list of our products.

Approved

VEKA Approved Installers demonstrate a commitment to quality by only using industry-leading systems from the world-renowned VEKA UK Group.

You can rest assured that all products fitted by your local VEKA Approved Installer have been CE Marked and come with an Insurance-Backed Guarantee.

Ticks all the boxes for customer satisfaction.

Frame security

Our products can be fitted with ultra-secure multipoint locking systems, providing the highest levels of security and delivering total peace of mind.

We use top quality branded hardware. Our handles, locks, chains and letterplates are all engineered to the highest specification – giving you further reassurance that your windows, doors or conservatory will keep unwanted visitors out.

From start to finish our products are designed, developed, manufactured and installed to meet or exceed current British Standards.

Security and safety are of equal importance to us. These are not optional features.

Invest & protect

By investing in any of our high security window and door products you're making a big step towards a secure home.

Their considered design means these invaluable security items do not impede on the aesthetics of your windows, doors or conservatory in any way – they simply offer ultimate security and total peace of mind.

Key features

- Top branded, market leading hardware
- Locking window and door handles
- Option of multi-point hook locking system installed on all windows and doors

Old windows, doors and conservatories are responsible for a significant proportion of wasted energy in homes across the UK...but we have the answer!

People today are far more aware of the methods and means of reducing their impact on the environment when compared to just a few years ago. This in tandem with ever increasing energy prices has led homeowners to make improvements to their properties. Loft and cavity wall insulation, solar panels and energy efficient windows and doors are the main areas of 'green' investment.

And when you look at the infra-red images below, it is easy to see why more and more people are choosing to replace timber and even 1st generation PVC-U windows with the more energy efficient frames that are available today. It's such a simple way to save money and do your bit for the planet too.

Our windows meet and exceed latest industry standards, giving you the peace of mind to know that you are buying quality – BSI approved quality.

Our products provide...

Smaller energy bills

Replacing all single-glazed windows with B-rated double glazing could save you around £165 per year on your energy bills.

A smaller carbon footprint

By using less fuel, you'll generate less of the carbon dioxide that leads to global warming – typically, 680kg a year.

A more comfortable home

Energy-efficient glazing reduces heat loss through windows and means fewer draughts and cold spots.

Peace and quiet

As well as keeping the heat in, energy efficient windows improve sound insulation.

Reduced condensation

Energy-efficient glazing reduces condensation build-up on the inside of windows when vented.

Nothing but the best energy rated frames...

We have dedicated significant time and money in developing a range of energy efficient products, all of which are capable of achieving the highest Window Energy Rating (WER) values. The WER system allows consumers to make fair comparisons (based on energy efficiency) between different window manufacturers, much the same as with white goods such as washing machines and dishwashers.

PLUS they're low, low maintenance

Life is too short to be scraping and painting at rotten old window frames – and even the old

The warmest area where heat is being lost

Bevelled

An angular, contemporary design.

Sculptured

Distinguished by a softer, rounded appearance.

Flush

Our FlushSash is the ideal window style for period properties, creating the heritage look with stylish, clean lines that sit flush within the frame.

COLOUR.

After

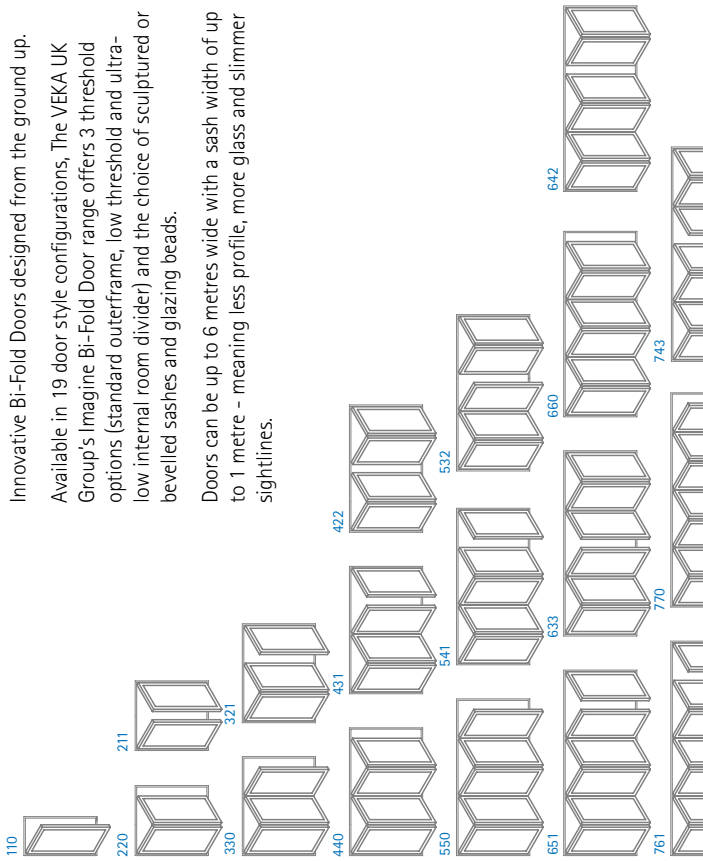

The **Imagine Bi-Fold Door** makes an attractive alternative to a traditional sliding patio door; completely opening your home up to the garden or patio.

Imagine Bi-Fold Doors are available in a range of 19 different styles as shown - the choice is yours!

Innovative Bi-Fold Doors designed from the ground up. Available in 19 door style configurations, The VEKA UK Group's Imagine Bi-Fold Door range offers 3 threshold options (standard outerframe, low threshold and ultra-low internal room divider) and the choice of sculptured or bevelled sashes and glazing beads.

Doors can be up to 6 metres wide with a sash width of up to 1 metre - meaning less profile, more glass and slimmer sightlines.

Patio Doors

...ne, bringing extra light and the illusion of more space. Internal or
...attractive gateway to a garden or patio with minimal obstruction.

The classic Patio Door offers a number of benefits, with no internal space required for opening and more light and space being the most notable.

Home will enhance your lifestyle, by
